

Green Playgrounds and Natural Playgrounds Company Progressive Design Playgrounds Adds Newly Streamlined, Affordable Site Amenities and Deck Systems

September 9, 2009, Vista, CA – [Progressive Design Playgrounds \(www.pdplay.com\)](http://www.pdplay.com), leading designer and manufacturer of environmentally friendly [commercial playground equipment](#), [natural playgrounds](#), safety surfacing and recreation site furnishings, recently launched a new line of recycled plastic site amenities and a deck system with fresh, modern designs and increased durability that is priced up to 40% lower than last year's models. In development for the past six months, the company introduced the newly streamlined, strong and affordable playground products as a way to lower product and shipping costs and increase long term durability without sacrificing design or quality. The new line of products is also more environmentally sound because of the higher percentage of recycled content, improved efficiency of how material is used and because its lighter weight, in some cases more than 50% lighter, requires less energy to ship.

Progressive Design Playgrounds Recycled Plastic Lumber Site Amenities

Recycled plastic 6' picnic table - \$968. (Last year's price \$1906)
Recycled plastic 6' bench with back - \$499. (Last year's price \$782)
Recycled plastic 6' bench without back - \$398. (Last year's price \$482)
Recycled plastic trash can – \$544. (Last year's price \$702)

The new line of products also includes an Outdoor Learning Environments tree surround system for \$1,668. Outdoor Learning Environments are [natural playgrounds](#) that extend the classroom into the outdoors where children can play with and among natural elements such as sand, water and living plants. A list of these natural [playground products](#) can be found online at <http://www.outdoorlearningenvironments.com>

Progressive Design Playgrounds New Deck System

Introduced Summer 2009, Progressive Design Playgrounds' new deck system features a sleek, modern design. At 2x6 the decks weigh 20 % less than previous generations and is less expensive to ship and easier to install. The original 4x6 decks are still available for customers who prefer this option.
